Northrop Grumman Aeronautics Systems Suppliers

Dear Valued Supplier:

In an effort to harmonize with our internal sectors, Northrop Grumman Aeronautics Systems has adopted a new SAP Supplier Scorecard calculation method to provide suppliers with feedback on their performance. Beginning third quarter 2020, this new SAP Supplier Scorecard will be posted on OASIS on a quarterly basis with quality and delivery schedule performance calculations based on the last rolling 6 months of data. Our objective is to share this relevant information with our suppliers about their performance. More importantly, we believe the SAP Supplier Scorecard process facilitates stronger communication between Northrop Grumman and our supplier partners.

The updated Supplier Guide [SG-0110](#) posted on OASIS provides an overview of the new SAP Scorecard. Please note that the Supplier Assessment Management System (SAMS) scorecard process is not changing at this time. If you have any questions, please contact your NGAS Buyer or Supplier Quality Field Engineer. Northrop Grumman values our suppliers and is committed to working with you to maintain the highest levels of performance.

Sincerely,

A handwritten signature in blue ink, appearing to be "Patti Stone".
